13 October 2021

To: All data subjects prior to 30 September 2021

**NOTIFICATION OF A SECURITY COMPROMISE IN TERMS OF SECTION 22 OF  
PROTECTION OF PERSONAL INFORMATION ACT, 4 OF 2013 (POPIA)**

- 1 The terms of section 22 of POPIA dictate that we must notify the data subject concerned, "...where there are reasonable grounds to believe that the personal information of a data subject has been accessed or acquired by any unauthorised person...".
- 2 Our Privacy Policy provides that if a breach occurs, we must give notice to the Information Regulator in the first instance and seek guidance from the Information Regulator as to timing of notification of affected data subjects. We gave notice to the Information Regulator on 5 October 2021 and have had no response, as such we would like to notify all possible data subjects of the incident to hand.
- 3 Data subjects are notified that one of our employees' laptops was stolen on 30 September 2021.
- 4 The theft was reported to the police under case number CAS 2/10/2021 at the Stellenbosch Police Station and the identity of the thief is currently unknown.
- 5 The stolen laptop is password protected.
- 6 We believe that any potential access to any personal information of data subjects would be localised to any files stored on the laptop's desktop. It is our understanding from the employee whose laptop was stolen that any files that were saved on the desktop of the stolen laptop are largely limited to some personal information of the said employee as well as our company and therefore that although the thief may technically be in possession of personal information of some data subjects, we do not believe the information to be easily accessible.
- 7 We are exploring the possibility of remote wiping company laptops as a standard procedure going forward.

Should you require any additional information, please don't hesitate to contact us at admin@aslinawines.com.
